## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1, 4-5, 7-9, 20, 10, 13-19, and 21-22 are allowed. The prior art alone or in combination fail to teach or make obvious on the following when considered in combination with other limitations in the claim: prescheduling switching of a packet-switched fabric, which switches both TDM traffic and PDU traffic on the same fabric and overlaid with a repeating synchronized frame used for allocation of timeslots for switching of TDM and PDU traffic, for TDM traffic by populating entries in a timeslot-reservation table to a contention-free allocation to provide exclusive reservation of timeslots in the frame for cells of TDM traffic to provide deterministic switching of TDM traffic over on the prescheduling of the frame and scheduling switching of the fabric for PDU traffic by arbitration scheduling of available timeslots in the frame as similarly recited in independent claims 1 and 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
